

Challenge Course medical info and release of liability

The Outdoor and Environmental Education program at Mt. Aetna Camp and Retreat Center (MACRC) offers a variety of Challenge Course activities for guest groups including group initiatives, low course, high course, and the climbing tower/zip line. The level of participation will at all times be completely up to the individual. Even though our course and facilitators are certified, there is a risk of injury or disability, both physical and emotional, that must be assumed by the participant.

MACRC policy requires that the participants health and accident insurance provide primary coverage for the participant. In accordance with this policy, MACRC reserves the right to refuse services to persons not covered by health and/or accident insurance.

To enable MACRC staff who are facilitating the course, to respond appropriately in an emergency, certain health and medical information is requested.

This form must be completed and delivered to MACRC before the guest will be allowed to participate.
